Skills

TypeScript, JavaScript, React, NodeJS, NextJS, React Native, Expo, React Query, HTML, CSS, PostgreSQL, Prisma, Git, Turborepo, NestJS

Projects

BoxScoreWatch

🔗 boxscorewatch

A web app that allows users to understand what happened in an NBA game beyond what the traditional box score makes available.

Soccerstats

🔗 soccerstats

A web app that allows users to analyze stats and events from football matches and export data visualizations, using Statsbomb's open data.

Experience

Forca Tech Agency   May 2024 - Jan 2025
Full Stack Developer   Remote
🔗 ForcaTech

- Developed features for a fintech platform using NextJS and TypeScript, later contributing to backend migration to NestJS
- Collaborated remotely in an agile team, working directly with international clients
- Built complex data visualization components and automated data processing pipelines for financial analytics
- Expanded role from frontend-focused development to full stack responsibilities, implementing both client and server-side features

Freelancer   Oct 2023 - Feb 2024
                                                           Remote

Developed a couple web apps that allowed users to seamlessly interact with the client's AI models.

Responsible for architectural planning and technology stack selection, ensuring alignment with project goals and optimal performance.

Exeedme   Apr 2021 - Jul 2023
Lead Frontend Developer   Braga, Portugal
🔗 Exeedme

- Led front-end development for all projects at Exeedme.
- Contributed to architectural decisions and tech stack selection for each project.
- Collaborated closely with back-end developers to ensure speedy project delivery.
- Played a key role in feature design.
- Thrived in a fast-paced startup environment, adept at adapting to evolving requirements and conditions.

Sprint Travel Viagens & Rent a Car   Nov 2020 - Mar 2021
Freelancer   Braga, Portugal
🔗 Sprint Travel

Independently conceived, designed, and developed fully functional websites from scratch for a travel agency and a rent-a-car agency, from initial concepts to successful deployment.

Education

Sports Data Campus   Nov 2024 - Present
Big Data Applied to Football   Master
🔗 https://sportsdatacampus.org

Universidade do Minho   Oct 2016 - Jul 2020
Computer Science   Bachelor's Degree
